

Brand	DX
Model	250557
Quantity	1
Color	Tan
Material	Polyimide
Features	Withstand short-term temperature: 380°C; Withstand long-term temperature: 260°C; Withstand voltage: ≥ 5 KV; It is highly resistant to heat and chemicals, puncture and tear resistant at high temperatures and offers optimal performance in electrical and thermal insulation; Ideal for protecting sensitive printed circuit board (PCB) components such as gold leads and gold fingers during the process of wave soldering.
Application	Further, due to its superior dielectric properties, this anti static polyimide tape works as a great insulator for static sensitive electronic components.
Packing List	1 x Kapton Tape
	Dimensions: 3.66 in x 3.66 in x 0.71 in (9.3 cm x 9.3 cm x 1.8 cm)
	Weight: 1.48 oz (42 g)
